

Your RowPro Subscription License

How to register your new RowPro Subscription License and activate RowPro

CONGRATULATIONS

You're ready to make the most of your beautiful new Concept2 indoor rower with RowPro

What is RowPro?

RowPro computer software helps you train like the pros in the comfort of your own home

RowPro is computer software that helps you get the best out of every rowing session:

Motivation — Use RowPro to motivate you to keep rowing and achieve your goals.

Technique — Develop good stroke technique with 3D on-water animation and 3D coaching.

Training — Improve your fitness quickly and train specifically using RowPro training plans.

Logbook — Measure your progress with logs and charts of results including splits & strokes.

Racing — Race stroke by stroke against pace boats, your own past rows, or rows uploaded by other people, or race live over the Internet with others like you all over the world.

How to register your license and activate RowPro

- **First**, go to www.digitalrowing.com/register and enter your RowPro Subscription License Number and registration details.
- **Next**, install RowPro in your PC from the CD in the pocket of your Concept2 Performance Monitor user manual.
- **Start RowPro**, and in the Activation Manager click the Activate tab. Follow the steps there to activate RowPro.
- **Finally**, check if you have the latest version of RowPro, and if there's a newer version available, download it and upgrade before you start using RowPro.

Assistance

- **For assistance** with RowPro or your Subscription License, please contact assist@digitalrowing.com or call our Help Desk on UK 0808-234-6132.

The only thing better than using a Concept2 indoor rower with RowPro is actually being on the water.
